WITH INCREASED
EFFICIENCY

HAGUE SECUROGRAM

This robust Secure Desk Top Hologram applicator protects a wide range of documents and even plastic cards from forgery, counterfeiting and duplication. Highly sophisticated Holographic Registered and Wallpaper images can be applied – continuously using an optional sheet feeder or manually fed.

AUTOMATIC CARD FEEDER

Ideal for applying a hologram to ID Cards or any credit card size card.

AMOUNT PROTECTORS

Amounts are embossed with ink permeating into the paper fibres. This machine has for many years been successfully used in Banks to prevent amount alteration. Available in 'single currency' and 'multi currency' options. Reliable and virtually maintenance-free.

PERFORATORS

Numbers and/or text are permanently marked through documents for validation and to prevent fraud. Extensively used on travellers cheques to prevent multi-use. Available Custom Built in both manual and electric versions.

CHEQUE SIGNATURE & SEALING SYSTEMS

Products range from small manual machines to high speed signers all with key control and none re-settable audit counters. May incorporate a macerated signature with a tri colour image for extra security. Providing total control for all your signature needs. Desktop Sealing Systems - Producing embossed seal for use on deeds, certificates and shipping documentation.

PREMIER SECURITY SOLUTIONS

We have several systems to automate cheque production:-

PREMIERcheques + produce the Cheque, Remittance and complete a cash book from one input of information - balancing your cash book in a matter of minutes with total security and control.

PREMIERcheque + takes data files and Laser prints a cheque with remittance/letter. This system can also apply the MICR line at the same time, allowing total flexibility for clients who run many bank accounts.

Easy to use software provides the information to be personalised

Hague specialise in providing highly secure solutions to the production of Shipping Documents, Certificates, Vouchers, Entry Permits, Parking Permits, Entry Tickets, Revenue Forms and Receipts.

PROACTIVE APPROACH

Hague are proactive in the fight against fraud. Our Cheques provide the most difficult challenge to the fraudster which means regular improvements in design and technology. Being a Hague customer means you will always receive the best protection against fraud.

CHEQUES

Hague are a major supplier Internationally of Highly Secure Cheques. Our proprietary Cheque Paper and sophisticated print designs - including Holographic Technology ensure maximum security. Ask for a quotation on Books - Continuous - A4 Laser - Multi-Part - One-Piece-Mailers.

HOLOGRAPHIC FOIL

Hague specialise in providing the most sophisticated designs available in Holographic Technology - standard and custom designs available.

+ TAKE CONTROL

THE FACTS

Banks, Governments and Corporates continue to experience losses through document fraud. Our market research shows 24% of organisations have suffered. Document fraud is a commercial fact of life.

THE RISK

Cheques and Security Documents are printed with little or no protection against fraud yet can carry substantial values. Criminals will target your documents! It makes good commercial sense to be more aware of the ways fraud occurs.

FREE ADVICE SENSIBLE SOLUTIONS

Hague will help advise how to improve the security of your documents. These improvements will enable you to meet your obligations towards the 'duty and care' requirements of the Banking Acts and more significantly help safeguard your companies' finances.
